

## **Farash and Jamun based Indigenous Herbal Medicines for Bleeding Piles (Hemorrhoids): Pankaj Oudhia's Medicinal Plant Database**

**Pankaj Oudhia**

### **Abstract**

The ancient literature related to different systems of medicine in India and other countries describe about combination of Jamun (*Syzygium cumini*) and Farash (*Erythrina* sp.) leaves in treatment of Bleeding Piles. In Traditional Healing of India, the Traditional Healers use many variants of this basic Formulation. They use other medicinal species in this combination in order to increase its effectiveness. Addition of other species helps them to recommend this Formulation to patients having Bleeding Piles with other diseases like Heart Diseases, Diabetes etc. The information about these variants is not available to modern researchers in form of scientific literature. Pankaj Oudhia has documented this important Traditional Knowledge in its original form.

This research document shows the list of topics discussed in Pankaj Oudhia's Medicinal Plant Database on Farash and Jamun based Formulations in reference to Bleeding Piles. For details please visit <http://www.pankajoudhia.com>
